Nonlinear Slideshow Peer-Review Sheet (5 points total)

This paper must be completed and turned in stapled **with your original layout draft**. You must go over the checklist provided for at least three other students' slideshow. Everyone must review other student's presentations. Give your total score for each slideshow. If you make more than two mistakes (for example, marking the correct spelling section when there is misspelling) you will have .5 points taken from your **own** score for each additional mistake. Write down a detailed description for any mistakes found in the Comments Box. Grade properly.

Your Name: _____

- 19 slides finished (10 points)
- 30 words minimum per slide (10 points)
- All links correctly work (10 points)
- Story can be followed easily (10 points)
- Story is appropriate (10 points)
- AutoShape Links (10 points)
- Correct spelling (5 points)
- Must have 4 clip art pictures minimum (10 points)
- Correct File Name (5 points)
- Consistent theme (10 points)
- Click transition turned OFF (10 points)
